All Greenfield Health Systems' dialysis facilities offer a compassionate, multi-specialty team, modern technology, clinical expertise, and the latest medical knowledge to provide the highest quality care available.

Your **social worker** can help you with your concerns through:

- Emotional and social adjustment counseling
- Assistance with removing barriers to treatment
- Education on kidney disease and treatment goals
- Bridging barriers to referral services and community resources

Your **dietitian** will review your nutrition and help you with:

- A customized food plan based on your preferences and your diet prescription
- Nutrition counseling for you and your family based on your special needs and treatment
- Information about special food products and supplements
- Information about appropriate recipes and cookbooks as well as sample and holiday menus

Education Programs

"Let's Talk CKD"

"Let's Talk CKD"
(Chronic Kidney Disease)
is an education program designed for patients and family members. The free two-hour class covers an introduction to the kidney, preventative steps for maximizing health, delaying the progression of Chronic Kidney Disease (CKD), and all treatment options.

"PEP Talk"

"PEP Talk"
(Patient Education Program) is an ongoing teaching program that adds to the knowledge gained from the *"Let's Talk CKD"* class and is designed to help you develop the skills and tools you need to achieve better health outcomes. It will increase your understanding of Chronic Kidney Disease (CKD) and dialysis

Your Team

At Greenfield, your physician, specially-trained nurses and technicians provide your individualized dialysis care. Additional services are provided by a qualified social worker and dietitian.
